

BUILD. RUN. MAINTAIN.

Management systems that **hold up** under audit.

BK17 is a veteran-led UK compliance consultancy. We build, run and maintain ISO management systems for cyber security, AI governance and defence, then keep them audit-ready day to day through TheMS, our management system platform.

14

Standards and
frameworks delivered

2×

RPO status: CMMC and
DCC

1

Platform for compliance,
risk, suppliers and people

Day 1

Audit-led approach from
first engagement

THE GAP WE CLOSE

Controls exist. They don't hold up.

Policies are in place but fail
under proper testing because
they were never operated
consistently.

Evidence exists. It isn't defensible.

Documents are incomplete,
inconsistent or too weak to
survive an assessor's challenge.

Scope looks fine. Until it's scrutinised.

Boundaries that seem
reasonable on paper unravel
under real assessment,
widening exposure.

One partner for every standard, and one system that proves it.

CONSULTANCY

BK17

Audit-led readiness, implementation, internal audit
and pre-assessment assurance across 14
frameworks, delivered by ex-military lead auditors
and CMMC practitioners.

PLATFORM

TheMS — The Management System

Builds your management system in minutes, then
runs the business around it: compliance, risk,
suppliers, people, sales and due diligence. Always
live, always audit-ready.

14 FRAMEWORKS · ONE PARTNER

Every framework you're likely to be asked for.

Every engagement is audit-led, evidence-backed and tracked live in TheMS, so integrated systems share one set of policies, risks and evidence rather than duplicating effort.

CYBER SECURITY & PRIVACY

ISO/IEC 27001

Information Security

An ISMS that satisfies certification auditors and enterprise customers alike.

ISO/IEC 27701

Privacy & GDPR

Extends your ISMS to cover UK GDPR and global privacy obligations.

Cyber Essentials / CE+

Baseline Cyber

Readiness, implementation, CE+ preparation and pre-assessment assurance.

SOC 2

Trust Services

Readiness for Type I and Type II reporting against the trust services criteria.

ISO/IEC 20000-1

IT Service Management

IT service delivery aligned to international best practice.

ISO 22301

Business Continuity

Withstand, respond to and recover from disruption with tested plans.

AI GOVERNANCE

ISO/IEC 42001

AI Management System

Govern AI systems responsibly under the first AI management system standard.

DEFENCE

CMMC 2.0

US DoD Supply Chain · RPO

Level 2 readiness against the 110 NIST SP 800-171 practices for US defence contracts.

DCC

UK Defence Cyber · RPO

Readiness, implementation, evidence and control validation ahead of assessment.

NIST SP 800-171

CUI Protection

Protecting Controlled Unclassified Information across systems and suppliers.

QUALITY, ENVIRONMENT, SAFETY & ENERGY

ISO 9001

Quality Management

Consistent quality and continuous improvement, including 2026 transition support.

ISO 14001

Environmental Management

Environmental responsibility and compliance with legal obligations.

ISO 45001

Health & Safety

Occupational health and safety management that protects people.

ISO 50001

Energy Management

Measured energy performance and a credible route to carbon reduction.

THEMS · THE MANAGEMENT SYSTEM

One system to build, run and prove your business.

Most organisations run compliance in spreadsheets and everything else in separate tools. TheMS replaces all of it with one live system. Every module is an entry point, so you can start with compliance, people, suppliers or investment and grow from there.

COMPLIANCE

Compliance & Certification

- 14 standards and frameworks supported
- Gap analysis on day one
- Live control tracking and readiness score
- Audit-ready evidence packs and audit simulation

SUPPLY

Supplier Risk Management

- Supplier onboarding and scoring
- Risk register per vendor
- Contractual compliance checks
- CMMC supply chain mapping

PEOPLE

People & Training

- Role-based training records
- Competency frameworks
- Onboarding compliance
- Awareness campaigns

DILIGENCE

Due Diligence & M&A

- Technical due diligence packs
- Investor-ready evidence
- ISO readiness scoring
- Board-level reporting

REVENUE

Sales Pipeline & CRM

- Compliance-led sales pipeline
- Tender and bid management
- Client due diligence
- Win/loss analysis

MARKETING

Marketing & Tenders

- Tender library and templates
- Accreditation showcasing
- Case study management
- Brand compliance

CAPITAL

Capital & Investment

- Investor readiness scoring
- Financial risk registers
- Governance frameworks
- Exit readiness packs

PLATFORM

Platform & Integrations

- Single dashboard view
- API and tool integrations
- Multi-entity support
- White-label for consultant partners

Optional modules: Training Records · Learning Centre · Project Management · Supply Chain · Human Resources · Security Schemes.
Accessibility features enabled in full (WCAG 2.1 and 2.2). 7-day trial with every module enabled.

DELIVERY APPROACH

Ready before it counts.

A structured, audit-led method that gets organisations to certification in weeks, not months, with every step evidenced in TheMS.

01

Readiness

Free readiness review and gap assessment against your target framework. Scope fixed and defensible from day one.

02

Build

Management system built in TheMS: policies, risks, controls and objectives tailored to how you actually operate.

03

Run

Controls operated consistently with live tracking, training records and evidence captured as work happens.

04

Assure

Internal audit, management review, control validation and full audit simulation before the assessor arrives.

05

Certify & maintain

Independent certification via an accredited body, then surveillance support and continual improvement.

CREDENTIALS

RPO

CMMC and DCC Registered Provider Organisation

Recognised to provide readiness and advisory services for US CMMC and UK Defence Cyber Certification.

AFC

Armed Forces Covenant · ERS Bronze

Signatory to the Covenant, supporting serving personnel, veterans, reservists and their families.

NER

NERDSC Associate Member

Norfolk & East of England Regional Defence & Security Cluster, an MoD-backed supply chain network.

PJR

PJR Assurance Partners

Accredited ISO audits and certification delivered independently by Perry Johnson Registrations.

WHY BK17

- Veteran-led and defence-native team
- Qualified lead auditors and CMMC practitioners
- Security cleared personnel, BPSS to DV
- Audit-led from day one, not document-led
- Consultancy and platform from one partner
- ISO 9001:2026 and 14001:2026 transition support
- Based in Scoulton, Norfolk, delivering UK-wide

Black Kyte 17 Academy

Training that builds in-house capability alongside every engagement.

Book a free readiness review.

Your posture mapped against your target framework. No commitment.
